INTERVIEW SUMMARY

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

On October 30, 2007, Applicant's representative, Derek C. Stettner, and inventor Michael James Knee conducted a telephonic interview with Examiner Tung T. Vo. During the interview, Mr. Knee explained how the coding decisions are embedded or integrated in the original video signal as is described, for example, with respect to one embodiment on page 5, line 30 through page 6, line 3 of Applicant's specification. As the Examiner noted in his interview summary dated November 2, 2007, as a result of the discussions during the interview, Applicant proposed amending the claims to clarify the relationship between the coding decisions and the input video signal. Such amendments will be presented in a supplemental amendment.

Entry of this Interview Summary is respectfully requested. The undersigned is available for telephone consultation during normal business hours.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Derek C. Stettner', with a long horizontal flourish extending to the right.
